Start-ups and young companies often have no access to borrowing at favorable terms such as through leasing, hire purchase or loans.

At **Evosciences**, we have responded to this need with our start-up program, which is designed around enabling your company to finance laboratory equipment and analytical instruments, effectively and seamlessly.

Procedure

- Procurement list and/or supplier offers
- Support in procuring equipment
- Non-binding financing offers
- Acceptance of finance offer
- Professional preparation of financial documents
- Processing of the credit application
- Establishing a credit line
- Eligible contracts

A customized financing program, the backing of a strong partner network, and expert advice tailored to your needs will enable you to bring your plans over the line quickly, efficiently and smoothly.

Requirements

- Valid business plan
- Financial plan with a three-year horizon
- Investor (HTGF, VC, etc.)
- Strategy for the next 18 months
- Equipment from established suppliers
